8" LED/F-Class GEN V

LED 8" Luna Downlight, IC Rated, 750-5000 Lumens

Description

8 inch LED recessed, IC Rated luminaire with medium beam spread, featuring superior thermal management with low profile projection into the plenum. Light engine features LED module and Advance Xitanium LED driver with outputs ranging from 750 to 5000 lumens and color temperatures from 2700 to 5000K. A wide selection of driver, reflector finishes and emergency battery back-up options available.

Specifications and Features

Construction

Galvanized steel mounting frame with integral junction box featuring hinged access covers and spring retaining latches; (3) 3/4" knockouts allowing straight conduit runs. Listed for (8) #12 AWG (4 in, 4 out), 90° C conductors and feed through branch wiring. Driver, LED module and optional battery backup accessible from below ceiling. Reflectors are held in place by friction clips, securing reflector flange tightly to finished ceiling. Vertically adjustable mounting brackets, accessible from below, accept a variety of mounting bars. Provided as standard with rigid formed, galvanized bar hangers which incorporating joist positioning tabs, integral nails, auxiliary nail holes and T-bar slots. Suitable for joist spacing from 12 to 24".

Light Engine

LED module is DLM Flex, producing up to 107 lumens per watt. Output ranges from 750 to 5000 lumens with (4) standard color temperatures. Color variations are less than 3-step MacAdam ellipses and have greater than 80 CRI at all color temperatures. Rated life in excess of 50,000 hours at 70% of lumen output (L70>50,000 hours). Standard driver is Advance Xitanium featuring auto reset

thermal protection and 0-10V dimming to 1% of initial light output with flicker free operation. Optional Triac (phase control) and Lutron Hi-Lume 2 wire dimming driver available.

Optics

LED module features soft white acrylic window, obscuring LED's, preventing pixilation and producing uniform brightness. Reflectors are a one-piece spinning from heavy gauge, high purity aluminum and are self-flanged. Reflectors are available in both Alzak® and painted finishes, producing a uniform distribution free of streaks, striations or hotspots while also providing superior cutoff and brightness control.

Controls

Compatible with a wide range of controls systems depending on driver selected. Standard driver features SensorReady technology for simple 2 wire connection to motion and daylight harvesting sensors. An open source architecture allows for the use of a wide variety of sensors and the ability to control individual or grouped luminaires through wireless communications. Contact factory for option controls and sensors.

Listings

Manufactured and Listed to UL 1598, ETL and CSA standards. IC rated, insulation may be in direct contact with luminaire. Suitable for Damp Locations; Wet locations under covered ceiling. All photometric tests performed by an accredited NVLP facility and in accordance to IESNA LM-79-2008 testing procedures. ENERGY STAR® certified product.

Warranty

5-year warranty on LED components.

Reflector Finish Options

SCL - Specular Clear
SGC - Soft Glow Clear
WHT - White Painted

All trims supplied standard with white painted flange.

Options

TDM⁴ - Triac Dimming Driver. Not available above 5000 Lumens.
EM-17⁷ - Emergency battery back-up. Remote test button & indicator Light.
HCR¹⁰ - 90 CRI (minimum)
PF - Polished Flange.

▲ Consultate Page OP-1 for additional housing and trim options.
▲ Consultate Page LED-DD for decorative trim options.

Notes

1 - Must provide voltage when optional drivers are selected.
3 - LDE1 not available above 4000 Lumens.
4 - TDM driver not available above 4000 Lumens.
7 - EM17 for use up to 5000 Lumens.
10 - HCR not available above 2000 Lumens.

Vantage reserves the right to change components, finishes or design details in any manner which does not alter the installed appearance or reduce performance and intended function.
